STUDENT SAFETY PROCEDURES

An important part of your education at the Career Center includes active participation in our safety program. We promote and enforce safety rules and regulations according to standards set up by the Occupational Safety and Health Administration (OSHA).

I will review safety rules at the beginning of and throughout the year and will continually monitor to be sure these rules are adhered to consistently while you are working in the lab area.

Before you will be permitted to work with the equipment in the lab area, you will be required to demonstrate understanding of the safety rules and safety procedures for the equipment. The lab will be inspected regularly to ensure that the equipment, operations, and procedures are safe for students and all persons working in or visiting the program.

- [] Every student, the instructor(s), and any visitors must wear industrial quality safety glasses at all times while participating in or observing classes in this lab. These glasses will bear a safety monogram on the lenses. If you wear prescription glasses, these must be industrial quality and bear this same safety monogram. Consult your personal doctor or optometrist for prescription safety glasses.

REMEMBER FOR THIS COURSE:

- [] **INDUSTRIAL SAFETY GLASSES**
- [] **LEATHER WORK SHOES – in the lab**
- [] **HARD HATS – in the lab**
- [] **GLOVES – in the lab**
- [] **SHIRT TAILS – must be tucked in at all times**
- [] **SLEEVES – short, rolled up, or fastened snugly around the wrists at all times**
- [] **JACKETS – fastened at the waist at all times**
- [] **JEWELRY – must be removed in the lab**
- [] **NO TIES – or other loose accessories in the lab**
- [] **HAIR – cut short, tied back, hat, or hair net in the lab**

Please be prepared to adhere to these safety codes. Please feel free to come to me if you have any questions.
